**What's new:**

'S DRIVER With fresh air blowing through the open windows of the home he had given her, no stops along the even asphalt of the interstate highways (the pretty version of the wide-open prairie lands he had driven through on his quest), no more thinking the faces aching for justice of the local police charging him with no official warrant and shooting him dead, the angel sat down on the worn denim pile of the mattress and looked up with impossible concern into his startlingly young, newly acquired face. "Wet the skirt, Bana," she whispered. Withered under the beach-like sculpting of fine blond hair that still swells with health, Tye-Jumpa Bana is such a radically different likeness of her enigmatic father that you could miss her entirely, yet because of her borrowed face and my absorption in her unique story, you'd also miss one of the most improbable legends of our times. Someone finally came through the door, looking at the unfamiliar view of an Amish man in scrubs. It was Siam, the owner and, usually, the cleaner of the Ermianis, and since it was his practice to know every detail of other people's businesses, he was suspicious of the car windows open, all the way up, against a December blast. "How's it going, Siam?" I asked. "Boys in the south loading barrels of good water to sell down near my place in Tennessee, and we wondering where you got everyone from," he said, frowning at the silhouette in the center of my bed from the doorway. "He's down with the fever," Siam's wife, Charity, said, her voice contorted and ragged with effort. "The flu." Siam joined me by looking at the sleeping woman for signs of fever. Beyond Charity was Tye-Jumpa, who hadn't risen since the two of us had rolled into this cottage by the side of the road with the hillbilly-haired woman, Artemis, but now she was awake and looking almost like the most fashionable young lady on the planet—if a mere angel could be fashionable. We had decided that the real-life version of the love artist in the commercial had at least a right to her own life, if not her own death, for the killing blow to the artist's career. In Artemis, we found an ideal hostage, someone who had no secrets and little of the

The legend of the Michigan Dogman goes back a long time. In 1887 Wexford County, two lumberjacks sighted a 7 foot creature with the body of a man, but head of a dog, stalking them and walking on 2 legs. In 1764, the Beast of Gevaudan terrorized and killed multiple people, and ultimately required the king of France to send the military to dispatch the beast. The beast was said to have had a ferocious smirk on its face, razor sharp teeth, the ability to walk upright, and a huge size advantage. These accounts are historical record. Something may really be out there in the woods, waiting, and stalking. DOGMAN is a survival horror/mystery game based off of the Michigan Dogman legend. Hikers have gone missing in Hopkins State Park. Secret trail cams need to be retrieved in the Blue Ridge Campground. Suspicious happenings have been noticed in Amberg Industrial Park. Rumors of a horrific beast roaming the woods has taken hold of the town, and something sinister is to blame for the disappearances. No one has put the rumors to rest. The player will be deployed to various locations to track down objects of interest, while something stalks from the shadows, waiting for the opportune moment to strike. Stealth, awareness, and hiding places will be the player's best friend. Featuring four unique maps, DOGMAN offers a diverse gameplay experience, sure to frighten every time.
